

# Rx PADS

Blue or green background on white paper will inhibit a forger from physically erasing written or printed information

Scalloped Void Pantograph: Repetitive VOID appears across face when color copied

Thermochromic Ink: The Rx symbol disappears with heat or when photocopied

Security features listed on the back allow the recipient to verify or reject

Tamper-resistant features prevent:

- Unauthorized copying
- Erasure or modification of information
- Use of counterfeit prescription forms

Eighteen states and the District of Columbia have laws requiring the use of tamper-resistant prescription forms, unless specific exceptions apply. <sup>1</sup>

## BUILD CONFIDENCE IN YOUR PRACTICE WITH RX PADS!

As Federal and State regulations for prescription pads increase, ensure your compliance by choosing the latest in Rx pad technology. Our scripts are compliant with state guidelines and are approved to print in California, Colorado, Delaware, Florida, Indiana, Kentucky, Maine, New Jersey, Washington state, West Virginia and Wyoming. Our standard secure prescription pads exceed Federal guidelines in all other states.

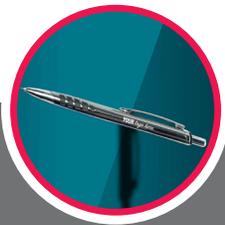

Our Controlled Substance Scripts exceed Federal Medicaid requirements. These state specific, tamper-resistant pads fight against fraud.

## HIGH QUALITY SECURITY FEATURES:

- Reverse Rx
- Chemical Protection Paper
- Invisible Fluorescent Fibers
- Microprinting
- Artificial Watermark on Back
- Watermark Printed in Coin Reactive Ink
- Batch and Sequential Numbering Available (upcharges apply)
